Hiring Manager

Tata Consultancy Services (TCS)

TCS House, Raveline Street,

Fort, Mumbai – 400001, Maharashtra, India

ssDear Manager,

I am writing to express my interest in the Data Scientist role at TCS, as advertised on LinkedIn. With a background in Computer Applications, and current training in Data Science and Machine Learning, I am excited about the opportunity to grow and contribute in a dynamic team like yours.

I have worked on several projects in data-driven applications. I enjoy making inconsistent data to useful data. I'm particularly drawn to this company because of its reputation for innovation and its focus on AI, LLM, solving real-world problems through technology.

What I bring to the table is a strong foundation in programming, the interest to keep learning, and the ability to collaborate and adapt quickly. I am looking for a role where I can both contribute meaningfully and continue developing my skills, and this position seems like a great fit.

I'd love the chance to connect and discuss how I can be a part of your team. Thank you for considering my application.

Best regards,

Salvin Cheriyan Babu
